

## ***First Five Years Research Study*** **Participation Incentives**

Because we appreciate your decision to use your valuable time to take part in this study, we are offering participation incentives for both leaders and parents. Earn these incentives by completing steps of the study process:

- Leader will receive a \$50 credit for Active Parenting proprietary products (e.g. programs such as *Active Parenting 4<sup>th</sup> Edition* and *First Five Years*) for conducting the Orientation session and administering all 3 surveys.\*
- Leader will receive a credit for 1 *First Five Years* Parent's Guide for each parent who completes the Pre-Survey during Session 1 and the Post-Survey during Session 4 and attends 3 out of the 4 course sessions. (Note: If a parent misses a survey, the leader may allow the parent to complete the survey outside of class within the following week.)
- Each parent will receive a \$15 Amazon.com gift certificate via email for attending 3 out of the 4 course sessions and completing 2 surveys, as long as one of them is the Pre-Survey (in Session 1).
- Each parent will receive a bonus \$10 on his or her gift certificate if the parent also attends the Orientation session and completes all 3 surveys.\*

All incentives will be distributed after the course is complete and parents' attendance and completion of surveys has been verified on the Study Participation Form.

\* The two incentives marked with an orange asterisk require control group participation, which includes holding an Orientation session and administering the Control Survey.
